

Instruction of China Compulsory Certification Mark Usage

(Exterior Lighting and Light-signal Devices)

1. Use of CCC mark

The applicant shall strictly comply with the Management Requirements of Certification Mark for Compulsory Product Certification, which is the attachment of Announcement on China Compulsory Product Certification Mark Reform by CNCA (Announcement No. 10 of 2018).

2. Design of the mark allowed to use

The mark should be applied in the way of printing/pressing.

It is allowed to adopt standard-size mark printed in a uniform manner for after-sales repair spare parts.

3. Mark position

It is necessary to print/press mark on exterior surface of lens of lamps or the proper position of the products main body.

4. Other special requirement

In accordance with product and technique characteristics, printing/pressing mark can be completed at any phase of product formation.

Certification mark shall be persistent and clear/visible without damage of vehicle and certified products.
