

## Instruction of China Compulsory Certification Mark Usage

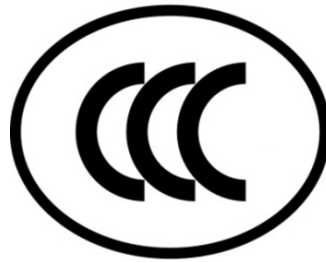

### (Door Lock and Door Retention Components)

#### 1. Use of CCC mark

The applicant shall strictly comply with the Management Requirements of Certification Mark for Compulsory Product Certification, which is the attachment of Announcement on China Compulsory Product Certification Mark Reform by CNCA (Announcement No. 10 of 2018).

#### 2. Design of the mark allowed to use

The mark should be applied in the way of printing/pressing.

It is allowed to adopt standard-size mark printed in a uniform manner for after-sales repair spare parts.

#### 3. Mark position

The mark should be printed/pressed on the proper position of the main body of certified product or the minimum package.

#### 4. Other special requirement

In accordance with product and technique characteristics, printing/pressing mark can be completed at any phase of product formation.

As being applied on the main body, certification mark shall be persistent and clear/visible without damage of vehicle and certified products.
